This flat offers an extraordinary design in an exclusive environment. The flat consists of 4 bedrooms and 3 bathrooms, 1 of them en suite. At the entrance of the flat, there is a guest toilet. The bedrooms are characterized by their spaciousness and brightness. All of them have views either to the sea or to the Santa Clara golf course. The kitchen is independent of the dining room and the living room and is fully equipped with top-quality furniture and appliances. Next to the kitchen, there is a laundry area. From the living/dining room, there is direct access to a spacious covered porch. This wonderful flat has a storage room and 2 covered parking spaces. The urbanization offers a coworking area, several swimming pools, and a gym area. The communal areas will be looked after to the maximum. The floors of the interior communal areas will be finished in porcelain stoneware and the walls will combine different materials depending on the area. Technology will also be present in the form of low-consumption LED lighting with presence detectors, which at the end of the month will result in significant energy savings that will optimise the use of resources and consumption. The lifts, with access from the garage to all floors of the house, will have car finishes in keeping with the rest of the project and dimensions in accordance with Accessibility Regulations. The doors will be automatic and stainless steel in the car and will be equipped with an alarm and telephone service for emergencies.
